

To All Homeowners:

The Design Review Committee and the Homeowners Association have agreed to accept the City of Las Vegas' recommendation to prohibit the following plants:

1. Oleanders – except dwarf Oleanders.
2. Common Olive trees
3. Mulberry bushes

Also, be aware that because of the invasive nature of cottonwood trees they can not be planted in Peccole Ranch.

Please review the PRCA Approved Plant Palette – plants from this list must be chosen for your landscaping project.

Thank you for acknowledging this information by signing below.
